Home Alarm & Scouting Camera

GSM compa: GSM850,EGSM 900,DCS 1800,PCS 1900
Primary Functions: Wireless PIR (passive infrared) monitoring system that transmits MMS alerts to your mobile phone
Picture Format: JPEG
Resolution: QCIF(160x128), CIF(320x240), VGA(640x480) SVGA(1280*1024)
Support 8GB SD Card, continue video recording time, up to 60 hours.
Minimum Illumination: 1 Lux
Built-in Lights: YES- 50 white LED for night shots
Recommended Range for Objects: 10-12 meter
Angular Field of View: Horizontal 60 deg / Vertical 60 deg
Operation Temperature: -10 ~ 50 deg C
Power supply: AC adapter
Backup Battery: 6000mAh rechargeable li-ion (optional)
Waterproof : YES
Operataion:
1 Infrared lighting distance 10m-12m, applying invisible light LED
2 Infrared scouting functionality, able to detect in 10m moving targets of over 20 cm body size.
3 Day/Night modes auto switch with relevant infrared sensitivity setting auto applied according to time setting
4 Pixel 1.3M
5 2inch LCD, able to display:
    a mobile network signal
    b remaining power volume
    c remaining memory space
    d current time
6 support TF (maximum support 8G)
7 Independent battery for clock, no need to re-set time after changing main battery.
8 Auto/manual mobile network setting, supporting 850/900/1800/1900MHz bands
9 MMS function, able to set 1 primary number, 9 backup numbers. Failure to primary number will automaticly trigger to send to backup numbers.
10 DV mode with 3 levels of resolution setting, 640*480@25fps
11 DC mode with 640*480 or 1280*960 resolution setting
12 The following functions can be controlled by sending SMS:
    a check remaining battery
    b check remaining memory space
    c take real time photo/film and send back by MMS
    d phone call notification active on/off setting
13 Phone call notification active on/off setting
14 phone monitoring make call to the Intelligent Scouter for live audio monitoring
15 Low battery warning SMS (auto send SMS when remaining battery falls as low as 20% + current time info); Low memory space warning SMS (auto send SMS when remaining memory space falls as low as 100M)
16 Flash light
17 Start-on PASSWORD for anti-theft
18 Taking photo/film order by SMS
